

located.

Upon arrival Griswold Rescue was on location with the male party, later identified as Cory Smith. Cory was uninjured and refused any treatment. After running Cory's information through NCIC it was discovered that Cory had a valid warrant through Pottawattamie County for failure to appear. After verifying the warrant I placed handcuffs on Cory and seated him the rear seat of my cruiser.

Cory advised that he was driving out by Keast Enterprises early this morning and put his truck in the ditch somewhere around that location. He said that he got the truck out and started to drive home and his truck broke down. He started to walk toward home and got hot so he sat down and eventually fell asleep.

Cory was transported to Corrections where he was booked in on his warrant, # SRCR168296. Cory's truck was left on location and I was going to return to tow it. When I arrived back on scene the truck was gone.

I have no further at this time.
